

ClearBOX 100 Series

Hybrid Gateway Appliance

While all ClearBOXes are designed to address Gateway, Network, and Storage/Server needs, the 100 Series is custom-tailored as a robust Gateway-centric device. Keep your network safe from hackers and protect your users from objectionable web content with ClearBOXes built-in modules offering best-in-class Intrusion Detection/Prevention, Firewall, Anti-malware, Content filtration and more.

All ClearBOXes come with ClearCenter's unique Hybrid IT architecture delivering applications and services through a seamless integration of cloud and on-premise resources. The 100 Series boxes comes in three models offering wired or wireless options to manage up to 100 users.

High Availability Ready
